### A Cismstock Scandal.

Last evening's Gold Hill News tells this pleasing story: The knowing ones of Virginia were on the qui vive to-day because of an anticipated divorce, for the coming of which everything had been arranged. It was expected that Judge Rising would be in chambers and hear and determine the case in accordance with the agreement between the parties. So far everything has been conducted quietly, for the parties are among the *bon ton*. Everything has been done by stipulation, and never a paper filed in the Clerk's office. The referee has been named and has taken the evidence of both parties and it is voluminous and unfit for the public eye or ear; for the complaint contains serious charges of infidelity against the wife, and the answer equally serious charges against the husband. But they have now agreed to call it quits. The wife leaves her child, but takes her jewels, wardrobe, etc., and is to receive \$700 in cash, and the interest on \$5000 for a specified time, and is to leave Virginia. The disappointment caused by the failure of Judge Rising to put in an appearance is all the greater as the wife is expected to rush from the bar of divorce directly to the arms of her new lover, so that to-morrow's sequel to the simple story would have been a marriage announcement.

### A Brave Tourist.

On Tuesday morning last, as the Idaho was steaming out from San Francisco bound for Portland, and while yet on the bar outside the heads, a colored waiter of the Idaho named Thomas Dolan deliberately plunged into the seething ocean. A young English tourist, named Pharoburgh Clapper, seeing the man overboard, and not knowing his act to be a deliberate one, plunged after him, but owing to the high running sea was unable to reach him. A soldier, also a passenger, followed the tourist and leaped into the sea. The steamer, of course, was immediately stopped and the engines reversed. A life boat was manned and lowered, and the volunteers were rescued, but before the boat could reach the colored man he had sunk out of sight. Love is the ascribed cause for the fatal leap. Yesterday evening a meeting of the passengers was held in the saloon of the steamer, and resolutions were adopted commending the heroic act of Clapper.

### The Insulted Subscriber.

Burlington Hawkeye: Yesterday morning a heavy-browed man, with the tramp of a dragon, strode into the business office of the Hawkeye and ordered his paper stopped. It was stopped, right on a hyphen, never waiting to finish the sentence. The man waited a moment to give the manager an opportunity to ask "Why," but the manager went on answering a letter from the Emperor of China relative to the terms for the daily and special advertising rates, and didn't seem to take much interest in anything else. Finally the man broke out: "I know when I'm insulted if I am poor. Here was me, takin' this paper high into eleven years, and when my daughter Sal was married last week, you must go and call her S-a-r-a-h. We don't put on so much style as some folks, but it grivels us just as bad to be called out of our honest names." And the indignant subscriber, refusing to listen to any apologies or explanations, went up to Marion Hall and joined the Democrats.

### A Horrible Death.

CHICAGO, August 10.—An unknown boy, about sixteen years of age, met with a terrible death at a planing mill on Clark street, near Twelfth street, this afternoon, where he had just been engaged as a workman. He was carrying a plank, when it accidentally caught in the planing machine. He was immediately drawn into the machine and literally sliced to pieces, his head, shoulders, arms, body and lower limbs being successively cut off by the knives.

Hiram H. Kempton, a State official of South Carolina, has been arrested for attempting to bribe the Legislature of that State.

## CONDENSED TELEGRAMS.

The British Parliament has passed a bill taxing Chinese \$40 per annum. The Austrian loss in Bosnia thus far amounts to 1000 in killed and wounded.

H. J. Montague, the actor, died of hemorrhage of the lungs in San Francisco on Sunday.

Orders have been received at Victoria from Ottawa to proceed with the overland telegraph line.

On the day of the recent eclipse the salmon in Fraser river ceased to run, and have not since resumed.

The Chinese Embassy decline anything like a public reception until after they are presented to President Hayes.

William Chapman, from Marysville, was found dead in bed at Chico on the 10th. Empty morphine papers point to it as probably a suicide.

Employees of the Philadelphia and Reading Coal and Iron Company decline to join in the general miners' strikes about to be inaugurated.

The Ward Presidents of the Workmen's party in San Francisco have condemned the management of the Palace Hotel for harboring the Chinese Embassy.

The deaths at New Orleans from yellow fever, for the week ending August 10th, were 66, and the cases 233 in number. On the 11th there were 22 new cases and 14 deaths.

The terrible tornado of the 9th killed at Wallingford, Connecticut, alone, twenty-eight persons, so far as yet known. Twenty-five of these were buried on the 11th. 10,000 persons witnessing the ceremonies.

At Jones' landing, near Memphis, Tennessee, on the 9th, at a political discussion between Democratic and Republican politicians, a shot was fired at a Republican speaker, followed instantly by a volley discharged at his party, principally negroes, one of whom was killed, and several others wounded.

The shoemakers of Chicago have struck for \$12, their employers offering them but \$10 50. The Six Chinese Companies of California have offered to supply 1,500 Chinamen, half good workmen and half green hands, for three years at seventy-five cents a day, and if the Crispins do not come to terms soon, it is thought that the proposition will be accepted, at slightly reduced rates.

### Hugged to Death.

Most any girl likes to be hugged, but there is such a thing as getting too much of that sort of fun. Adele Millet, of Tours, found this out. Her body was recently found in a room in that city. The room was in the greatest disorder, the bed upset, the vases were shattered to pieces, and in the center lay the body without any visible sign of violence. A doctor who was called in, however, noticed that the tongue protruded, and he then ascertained that the poor woman had actually been embraced to death by some one of herculean force, there being no less than twenty-four fractures on the upper part of her body.—*Ex.*

### Kearney's Frozen Cheek.

Stock Report: We fear that Kearney is doing business on more of a borrowed capital than we supposed. Not only does he steal his flights of rhetoric, but it seems his choicest epithets are pilgriaged also. The Sacramento Bee has gone back to its files and finds that the expression "villainous, serpentlike, slimy thief, and imp of hell," is exactly the expression used by Grove L. Johnson last winter in the Assembly, when the incendiary act was under discussion and that the person of whom and to whom the vigorous language was used, was no other than Denis Kearney himself.

### A Glorious Country.

Courier Journal: Under the new liquor law in Mississippi every saloon-keeper is required to buy of the State Auditor a book of coupons, and everybody who takes a drink is handed one of these coupons, which the State receives for taxes at one cent each. If he pays for two drinks he receives an orange-colored coupon good for two cents; if five drinks, a blue coupon good for five cents. Thus a man who goes at it properly and sticks to business, can take in enough coupons in six months to pay his taxes for a whole year.

### The Last of the Triplets.

San Francisco Chronicle: The only survivor of the Folsom-street triplets, Lucienne, known as "Pink Ribbon," is in an extremely weak state, her face waxen white and her tiny hands almost transparent. Although nearly six months old she looks scarcely larger or stronger than a week-old infant. Her trouble would seem to be the same as her sister's, marasmus, a gradual wasting away of the flesh without any apparent cause or reason.

## SHORT BITS.

Do not flirt with married women. It annoys their husbands and may shorten your days.

Tea was first introduced into Europe about 1600, and sold for 60 shillings a pound, and hence was coveted as a great luxury.

A strong agitation has sprung up in New York City for the reduction of the price of lager beer from five to three cents a glass.

Correspondent "B. F. B.," who sent us a contribution entitled "My Lyre is Hushed," is informed that we are glad of it.

When usefulness is considered, the man who smokes cigarettes dwindles into insignificance by the side of the individual who smokes hams.

The hot spell killed thousands of fishes in Western rivers. To avoid sunstroke fish should wear something damp on top their heads.

Ben Butler owns a yacht. It is some consolation to know that no owner of a yacht has ever been called President of the United States.

A Mississippi Judge was just saying that no one but a coward would carry a pistol, when his own fell from his pocket, was discharged, and the bullet hit a lawyer in the leg.

It has been discovered by the Minnesota farmers that two acres of sunflowers will supply a family with fuel through a long winter. The wood of the stalks and the oil of the seed make roaring and cheerful fires.

The most active fomentor of the riots at Washington was, as is often the case, not a workingman, and had no other grievances of his own to redress than his disappointment at not getting an office.

### Warning to Married Men.

It doesn't pay to take the springs and stuffing out of a sofa and then get inside yourself in order to discover whether your wife is unfaithful or not. Perhaps this advice may be regarded as superfluous by our married readers, but Mr. John Enders, of Chillicothe, Ohio, adopted this plan last week. It would have possibly been successful, but when Mrs. E. and the "bold, bad man" of the occasion entered the apartment, Mrs. E., who is very fat, sat right down over Mr. E's head, and unconsciously smothered that suspicious gentleman to death. This is a warning to married men.—*Ex.*

### Death of Bill Poole's Murderer.

NEW YORK, August 11th.—A Paris dispatch says that Lewis Baker, who shot Bill Poole in New York in 1855, has died in that city. Baker lived in Paris, under the assumed name of Jackson.

## WHIPPING IN.

We heard an able politician say recently that he believed in whipping everybody right into the traces. "No half-way work," said he. "Let's give every member of the party to understand that they must stand in, anyway. We can't argue with everybody. Let's crack the party whip about their ears and make them run an old-time race." As we heard this man talk, we knew that he had a considerable following among the press and manipulators of party matters.

What does this whipping mean, and who gave these men the right to whip anybody in or out? Who are we to whip in, and why will they not come without the lash? These questions and their answers will lead us to the gist of much that is vicious and radically wrong in politics. Any man who was a partisan yesterday maintains his allegiance today, if his party keeps faith with his interests and those of the people. If the party is considerate for success alone and does not grapple with the local and general questions which make voters prosperous and the people happy, how will you induce men to support it. In what way will you frighten men who are not office-seekers? The mass of the people, the men who must elect, want prosperity and not office. Deal then with the questions which affect them and you have already whipped them into the traces. Don't say that last year's issue is dead when it still affects us. Don't say that you know what the voter wants, and who he must have, for if you do the voter will whip out or in at pleasure. These remarks are loosely joined, but they ought to suggest a change of policy to some of our managers. Let us not whip the voter into ranks at all, but rather invite him, and show him that we can befriend him. Make your platform and declaration of principles an embodiment of common wants. Give what guarantee you may that parties can serve the people. Throw your whip away and talk sense to the voter. He has tired of these force methods, and will demand some consideration. You can lead him, but when one drives, it often happens that the whip wraps about his own ears. Think of this, friend politician, and you will not be so anxious to use the lash when fair argument and a pleasant invitation will serve better.

## EDITORIAL NOTES.

Last week's Elko Post stated that L. I. Hogle had withdrawn from the contest of Lieutenant-Governor, and would support Jerry Moore for that position. In an interview with Mr. Hogle since, he informed the Times-Review that the Post's statement was authorized by him, but since his conversation with its editor, certain things had come to his knowledge which had induced him to remain in the field, and he stated to the Times-Review emphatically that he would be a candidate before the convention, provided his man—whose name he did not mention—received the nomination for Governor.

Those good people from Utopia who fondly desire the admission of woman to all trades and professions will be glad to learn that a female person has lately developed as a candidate for honors among the vacant heads. This lady promises to go over Niagara falls in a small boat, waving the American flag and shouting Moody & Sanky's hymns. Her idiocy deserves honorable mention. She has our permission to omit the hymns, but we hope she will not fail to go over the falls.

An exchange says that dreaming that tramps were after her, a New-comerstown, O., woman rose in her sleep and was sadly hurt by jumping from a second story window. If we had a wife and that had happened to her we should have taken the household club and gone out and laid for the first tramp that came along. Neither should we have given him time to ask what it was for.

Harry Norton, formerly of Silver City has been writing about society in the Black Hills. Mr. Norton is of

opinion that the society is good enough. He says that all men who love good order, educational advancement and the various refining influences which purify society and bring about that moral standing so desirable in all communities, ought to be pleased with the Hills. This does not tally well with the fact that the Coroner is the best paid man in Deadwood.

The Carson Tribune published yesterday a column communication upon the question of General Connor's eligibility. The writer says plainly that the General is not an available candidate from any point of view, that he has never exercised the privileges of citizenship, and further, has never claimed them in Nevada. While acknowledging cheerfully the personal fitness of General Connor for the office, the correspondent does not believe that in any particular General Connor meets the requirements of law or citizenship in Nevada. We are not acquainted with the facts of General Connor's career in this State, but we are firmly of the opinion that a non-resident cannot be elected Governor. There may, however, be some decided mistake in the correspondence mentioned. Let us know.

The horse that annually commits suicide by walking into the water and staying there till his spirit bounds into the golden stable is slowly cantering around the newspapers again. We are weary of the mustang, and would be glad if the man who is 110 years old and never chewed tobacco and splits a cord of wood before breakfast every morning, would mount the suicidal beast and ride off into space.

Ben Butler, the hero of New Orleans and the spoon legend, is again engaging the attention of the newspapers. They all want to know what Benjamin is—Republican, Democrat, or what? Ben does not care whether they know or not, but stoops down and gathers another brick whenever they talk of firing him out.

Lieutenant Whyse, who has just completed surveys for a canal across the Isthmus of Darien, has found one route which is only forty miles long. He estimates the cost of building a ship canal on that route at \$115,000,000. He suggests an international commission to examine the four or five routes already suggested.

Dennis had better stick to his native "thaves in broadcloth" school of oratory. Cribbing chunks from Burke, Ingersoll and Fitch—all of them hell-hounds of capital and lecherous bondholders—is not only mean and thievish, but altogether too risky as Dennis has learned to his cost already.

E. Blennerhessett, has been named as a Democratic candidate for Lieutenant-Governor, and the Tribune publishes from Humboldt a communication endorsing Mr. B. in very high terms. Thus is another corpse provided for the Democratic obsequies of 1878.

President Hayes has selected Benjamin F. Bristow as chief counsel for the government in the South Carolina cases. Bristow is a lawyer and a statesman. The President was wise in selecting him, as he has been in the majority of his appointments.

The Lassen Advocate comes to us now a very much better paper than formerly. The new editor, Mr. Weed, is evidently a newspaper man, and we hope that the people of Lassen county will support his paper liberally.

Kearney ought to get up and wrestle, and not allow California to be disgraced. Cohen, the Washington "workingman," has two private secretaries.

The San Francisco Alta says it knows a broker who calls his mother-in-law Bodie, because he can't bear her.

Bessie, a Blackbird colt, trotted five miles in 14:43 at Chico on the 10th.

### JOTTINGS.

— Chinatown will no doubt have to move.  
— Don't forget the fair meeting at the opera-house.  
— Grey & Isaacs have received another large invoice of dry goods.  
— M. Andre Massena lectures on Free Masonry at Masonic Hall this evening.  
— Serefen Goselen, the man thrown from a wagon at Franktown on Saturday, is dead.  
— B. B. Norton has so far recovered as to be able to take a daily drive. It is now hoped that he may get well.  
— A few drops of rain fell yesterday afternoon. Everybody longed for a shower that would cool the air, but it wouldn't come.  
— We are indebted to Congressman Wren for a quantity of public documents, containing the reports of several departments of the government.  
— Last night about 12 o'clock two pistol shots were fired on the alley near Virginia street. Who fired them and with what object the officers were not able to find out.  
— The citizens of Verdi have organized for protection against the tramps. Before long it will take a man of no ordinary courage to allow himself to be seen on foot near a strange Nevada town.  
— A lot of new Chinamen arrived to-day from White's canyon. A wood contract has been completed and the fearless heathen comes down to enjoy the pleasures of sin for a season.  
— Even a day's seclusion in a grove like that of Win. Merrill's at Verdi; a fine bath in the river which runs by this grove, would be appreciated by any one who can not enjoy 100 degs. in the shade.  
— J. J. Hill, of the Winnemucca Silver State, favored the GAZETTE office with a call this morning. Mr. Hill is looking well, and is as pleasant a gentleman as one could expect to find outside of Reno.  
— The severest sufferers by the burning of Chinatown, were the degraded white wretches given to "hitting" the opium pipe. They get their regular doses of the drug in the wash-houses now, however, and are happy again.  
— John Kelley, the violinist, known to every pioneer and the progeny thereof, has decided to give a concert at the Academy of Music to-morrow evening. He will be assisted by his talented wife. Both are artists and deserve a crowded house.

## THE GRAND BOUNCE

Which has Been Given Pedestrianizing Poverty.

The workmen have accomplished one good thing for Reno. The recent threat to drive out the heathen, and the fear that the threat inspired in the respectable breast that the town would be sacked and burned, has cleared the vicinity of tramps. Of course, there are some honest fellows afoot, but the majority of the men loafing about the country are bad eggs and dangerous visitors to any community. The citizens still keep up their patrol, and give the grand bounce to anybody who has no business hereabout. To the credit of the patrol it should be said that when a decent tramp is found, he is supplied with money from generous pockets, to make up for the inconvenience of being fired out of Reno. At least a score of old-time nuisances and night birds have skipped to escape arrest—a very satisfactory circumstance. The citizens should make it a point to keep them away. Judge Richardson has had a busy time of it disposing of the cases brought before him on complaint of the citizens. It is a very difficult thing to convict a man on a charge of vagrancy, and the Judge has compromised with the tramps by giving them a few hours in which to leave town. This has accomplished the result at which the citizens have aimed. By some mysterious means the tramps have learned that Reno just now is a hard place to stop at, and, like the Levite, pass by on the other side. Although injustice may be done in a case here and there by this summary process of getting rid of needy pedestrians, it is a good thing for the town.

#### A Lovely Lead.

Considerable interest was caused yesterday afternoon by the appearance upon Commercial row of a spring wagon containing a most extraordinary looking party. Holding the reins was a tall young man wearing a full beard and a fiendish expression. One-third of a duster flapped lazily from his shoulders, the remains of a Panama hat rested upon his head, while pieces of hay rope prevented great rents in his trousers from gaping wide open. He had but one boot. The other foot was bunched up in a gunny-sack. His nose was red and slowly bleeding, the organ having the appearance of having been sandpapered. This was L. S. Burchard, business manager of the GAZETTE. Beside him sat the little that was left of W. F. Edwards, our foreman, and that little was carefully done up in rags. One eye was closed and frightfully swollen, the result of only one night's work of a bug. In the body of the wagon, among pots and kettles, and blankets, and flour and bacon, reclined three lovely creatures, their faces wholly hidden by long poke bonnets. Not all the dust and dirt and rags with which they were handsomely covered could conceal the witching grace of their movements, suggesting to the enraptured spectator, flap-jacks and stolen chicken and coffee, seasoned with spiders and grasshoppers. The party had just got in from a ten days' camping trip at the lakes. To-day they are swept and garnished.

#### Personal.

Frank McCullough, superintendent of the Merrimac mill, was in Reno last night.  
Archie Borland, L. Rosener, J. T. Hill and R. F. Pixley were passengers on the lightning train bound for Frisco last night.  
J. A. Brumsey, the principal insurance agent of Virginia City, together with his wife, passed westward last night. They will rusticize for several days at Tahoe.  
Hon. J. P. Jones, and his brother, Sam. Jones, shook hands with their Reno friends last night. Stands the handshaking first rate, does J. P.  
A fire broke out on Sunday night on the main line of the Central Pacific railroad, about two miles west of Shady Run, between Alta and Blue Canyon, and burned 130 cords of wood and the ties in 240 feet of track. Several of the rails were badly bent, and two had to be cut out and replaced. The wood belonged to the railroad company. The fire was evidently of incendiary origin, as no trains had passed for three hours before it originated.  
Laid Over.  
Our article on Webber and Independence lakes, which should have put in its appearance to-day, was delayed, owing to the immense amount of laziness which nine days in the mountains has generated in the writer. To-morrow, dear friends, we shall attempt to annoy you by a description of retreats cool and delightful, refreshing indeed, and of course in marked contrast to the terribly hot weather of our own town.  
An Unfortunate Official.  
A miserable, insufficient, exasperatingly meagre sprinkle came down from the clouds this afternoon. If the master of meteorological events (formerly employed as clerk of the weather), cares about the respect of Reno, he will do something decent in the water line within the next twenty-four hours.

## HE SAWED HIS NECK

Because Times Were Dull and Woman Perfidious.

Last night about 11 Frank Simpkins, a man employed as barkeeper at the Mint saloon, Virginia street, made a gory attempt at suicide in the back room of Miss Nelson's ice cream saloon. Miss Nelson was arranging some dishes in the room when she heard Simpkins, who was standing behind her, open his pocket knife and on turning around was horrified to see the man in the act of sawing at his throat. She sprang forward and caught the knife, getting her hand badly cut for her pains. Simpkins drew away from her and gashed open his neck on the other side. He fell to the floor and bled frightfully. A surgeon was summoned and Simpkins had his wounds sewed up. They are not of a dangerous character. Simpkins came here from Colfax a few weeks ago. For several years he was employed at that place at the Depot hotel. Afterwards he was shotgun messenger on the railroad. He found temporary employment at the Mint saloon. Yesterday the proprietor noticed him whetting his knife and writing several letters to parties in Colfax and elsewhere. Simpkins, although he is old enough to know better, being about thirty-five years of age, is said to be a victim of the tender passion, and has allowed the demon of jealousy to dance a jig in his soul. A Hebrew gentleman, known as a professional fascinator of the succumbing sex, is reported to have cut the poor bar-keep out, hence these ugly gashes. He is doing quite well to-day.

#### Webber Lake.

If anybody wants a good time he should take his wife, if he have one, or if he be without one, his girl, and a few friends and go to Webber lake. Dr. Webber keeps a first-class hotel there and knows how to give his guests an enjoyable time. Read his advertisement in another column which sets forth the attractions of the region—and then get a spring wagon and go off while the weather is hot, dusty and disagreeable.

#### Committees.

There will be a meeting of the Democratic County Central Committee on Saturday next, for the purpose of apportioning the county. The Republican County Committee will meet at the court-house on Monday next, August 19th.

### SPECIAL NOTICES.

#### Don't Forget It.

If you are troubled with nervousness, are disheartened, tired of life, fear death or feel out of sorts, as the saying is, you may safely conclude that you have the Dyspepsia or Liver Complaint. The liver is very apt to become torpid at this season of the year, as poisons arising from marshes, stagnant water are more numerous, and are, through inhalation, taken into the blood. Unless the liver is strong and active, and furnishes a supply of fresh and pure blood to drive out the impurities, the above mentioned symptoms surely follow, and if not heeded, end in more terrible diseases and death. White's Great Liver Pile proves itself the great liver panacea. Its action on the liver is different from any medicine ever compounded. Its cures are truly wonderful. Try it. Price, twenty-five cents and seventy-five cents. For sale by our druggists, OSBORN & SHAWMAKER. au7 6ed

**SIMMOND'S NABOB WHISKY.**  
**A GREAT REMEDY.**  
**SIMMOND'S NABOB WHISKY.**  
FOR  
Indigestion, Dyspepsia and Nervousness.  
**The Purest and Best**  
FOR ALL  
**Medicinal and Family Purposes.**  
HAS BEEN SOLD IN ALL THE EASTERN STATES AND GIVEN UNIVERSAL satisfaction. It is highly recommended by the Faculty for all cases of Nervousness, Weakness, Debility, Dyspepsia, Indigestion, etc.  
It is now introduced to the public of the Pacific Slope, endorsed by certificates of the eminent DR. J. HAYES, State Assayer of Massachusetts, and DR. H. C. LOUDERBACK of St. Louis, Mo., both gentlemen prominent in their profession, and which is a guaranty to all buyers of its purity and quality.  
I can show thousands of letters from private persons, from all parts of the Union and Canada, testifying to its merits and the benefit it has afforded, as a family remedy and tonic.  
Dyspepsia is called the national disease of this country, and many reasons why have been given. It is frequently said that people work too much, eat too fast, sleep too little, tax the powers of nerve and brain too incessantly, drink too much ice water, eat too much hot bread, smoke too much tobacco, give way to too much excitement, and consequently play themselves out in the shortest possible time. "A short life and a merry one" seems to be the sentiment that chiefly influences a large number of persons, but for all that no person feels at ease when suffering in health. Now, however, much or little truth should be attached to the opinion of physicians who charge the great prevalence of dyspepsia and nervousness to any of the causes mentioned. It cannot be denied that there are some applications received by druggists throughout the country for medicines to relieve and cure stomach and nervous pains and disorders, and all other maladies that afflict frail humanity. As might be expected under the circumstances, a large number of specific to contract these diseases have been introduced to the attention of the public, but nearly all of them have failed to do any good. Whenever, in fact, any alleged new remedial agent is spoken of, very little confidence is felt in it by reason of numerous past disappointments, so that people who are chronic sufferers from dyspepsia, indigestion, physical weakness, or nervousness almost despair of being cured. They, however, take too despondent a view of the matter, for those who have used the celebrated NABOB WHISKY, which can be had from all respectable druggists and grocers, know by experience that it is a sure remedy for all the maladies referred to, and that its tonic properties are of the most strengthening character. Many persons who found it impossible to properly digest a single meal, and whose physique had been sadly attenuated, have derived immediate benefit from the NABOB WHISKY, and in a short time, by its regular use, regained all their health and strength. It can be taken with impunity, as no drugs are incorporated with it, and its healthy action on the human system is at once felt. The effect which it produces on the organs of the stomach is such as to create a vigorous appetite and render digestion easy, no matter what the habits of the sufferer may be, and it at the same time steadies the nerves and stimulates the brain. There are no fictitious claims for the great remedial agent, so that all persons who are troubled with dyspepsia or nervousness would be wise to themselves if they failed to test its curative qualities. Its sale is rapidly on the increase, and the better it is known the more it is used.

**To the Afflicted:**  
Dr. L. J. Czapkey would most respectfully inform the public of the Pacific coast that, at the earnest solicitation of his numerous friends, and hundreds of those unfortunately afflicted with disease, he has reopened his MEDICAL AND SURGICAL INSTITUTE and resumed the practice of his profession. The Doctor would remind all those who are in need of medical aid, that since relinquishing his very extensive and successful practice in San Francisco, he has visited the principal cities in Europe, inspecting diligently the experience of the most learned in the profession, the benefit from which he offers to all in need of his services. Rheumatic affections, chronic catarrhs, diseases of the stomach and kidneys, liver complaints, etc., successfully treated. Those who are suffering from the errors and indiscretions of youth, nervous weakness, physical and mental debility, are assured of a permanent cure. Charges moderate. **MISCELLANEOUS.**  
**FELLOWS' Compound Syrup!**  
—OF—  
**HYPOPHOSPHITES.**  
**THIS DISCOVERY**  
Is the result of a series of Scientific Experiments based upon the theory that "for the successful cure of Wasting Diseases, the nervous system must be made vigorous and healthy."  
One of the first symptoms of disease affecting either the Liver, Lungs, Heart, Stomach, or Genital Organs, is a loss of nervous power. This is followed by muscular relaxation, weakness, and emaciation of the system, which depend upon them for health or involuntary muscular action, the weaker suffering first. The inventor, acting upon this idea, that the muscles and nerves depend upon each other for efficient strength and action, and that they must be treated directly in order to speedily and permanently cure diseases of the organs which they control, became convinced, after months of experiment, that no other preparation produced such potent and direct effects upon the nervous system as his  
**Compound Syrup of Hypophosphites**  
and except in cases of actual organic loss, that it would restore patients suffering from those maladies.  
Amongst the diseases overcome by the use of this remedy are the following:—  
*Chronic Constipation, Chronic Dyspepsia, Asthma, Chronic Bronchitis, Consumption, Chronic Diarrhoea, Chronic Laryngitis, Melancholy, Nervous Debility.*  
Debility, resulting from Typhoid and other low fevers, Diptheritic Prostration, Hysteria, Hypochondria, Nervous Excitability, Marasmus or Wasting of the Muscles, Aphonia or Loss of Voice, Singleness of the Liver, Interrupted and Feeble Action of the Heart, SUPPURATION of the Lungs, and Air Passages leading to the Lungs, and Air Passages leading to the Lungs, and Debility from various causes. Indigestion and habitual Constipation almost always arise from weakness of the muscles and nerves of the stomach and bowels. In such cases, Fellows' Compound Syrup of Hypophosphites has proved itself of the greatest service by inducing healthy peristaltic action of the intestines. The evacuations soon become copious and healthy, without producing the effect of purgative medicine.  
Weakness of the Joints and Muscles, IMPURITY OF THE BLOOD, and INWARD WASTING may be cured by attention to the regular described doses, and by due regard to the habits of life.

**FELLOWS' Compound Syrup of Hypophosphites**  
The power of arresting diseases displayed by this preparation is honorably acknowledged by the medical faculty in every section where it has been introduced, and it is regarded as the best guarantee of the estimation in which it is held by the public.  
This syrup will cure PULMONARY CONSUMPTION in the first and second stages, will give great relief and prolong life in the third. It will cure Asthma, Bronchitis, LARYNGITIS and COUGHS, and it will cure all diseases originating from want of MUSCULAR ACTION and NERVOUS FORCE.  
Sold by all Druggists.  
Price \$1.50 per bottle or six bottles for \$7.50

**CONSUMPTION**  
**Positively Cured.**  
All sufferers from this disease that are anxious to be cured should try Dr. KISSNER'S Celebrated Consumptive Powders. These Powders are the only preparation known that will cure Consumption, whether in the first, second, or third stage, and in all cases of the Throat and Lungs—indeed, so strong is our faith in them, and also to convince you that they are no humbug, we will forward to every sufferer, by mail, post paid, a free Trial Box.  
We don't want your money until you are perfectly satisfied with their curative powers. Your life is worth saving, don't delay in giving these Powders a trial, as they will surely cure you.
